### WORK EXPERIENCE

**Alten S.p.A.** Remote, Italy

#### Team Leader | Senior PHP Developer

03/03/2025 – Current

As a Senior Backend Developer and Team Leader at Alten, I design, develop, and maintain scalable and robust backend solutions, mainly using PHP (Laravel framework). I am responsible for leading technical teams, coordinating tasks, and ensuring the delivery of high-quality software products aligned with project requirements and deadlines.

My activities include:

Designing and implementing RESTful APIs and backend services following best practices in security and performance.

Leading code refactoring initiatives to align with updated database models and business logic.

Managing CI/CD pipelines with AWS CodePipeline and maintaining coding standards using Laravel Pint.

Collaborating with cross-functional teams (frontend, QA, DevOps) to ensure seamless integration and delivery.

Mentoring junior developers and conducting code reviews to maintain high-quality code.

Supporting the Product Owner in backlog grooming, technical feasibility analysis, and sprint planning.

Main technologies: PHP, Laravel, MySQL, REST API, AWS CodePipeline, PHPUnit, PHPunit, Git (trunk-based and git-flow workflow).
